

Circular

Dear IAVP & ICVP Executive Members, and IAVP Members/ ICVP Diplomats

You are aware that the IAVP has been publishing a half yearly Newsletter, **The Lesion**. The combined issue of **The Lesion 2017** is due to be published by mid of **October, 2017**. The Newsletter, besides having important messages from the President/Secretary General/Chief Editor, if any, has large section for Association News, Technical news and important circulars, accomplishments (awards, prize, honour, recognition, etc) of our members. In Technical news section, we intend to include very interesting and unique case reports, breakthroughs in pathology, topical issues, application of cutting edge technologies in pathology and any other matter that enhances the skill of pathologists. The contribution should not exceed 250 words with one or two good quality photographs/ illustrations. Submission of material by the member does not guarantee publication in the Newsletter. The final selection of material for inclusion in this section will be purely based on the quality, relevance and uniqueness of the contributions. **Please submit messages / association / technical / scientific news/ superannuation's/ obituaries etc. by e-mail (karam.singh@rediffmail.com ordr.rsomvanshi@gmail.com).** Contributors may be contacted for any clarification/ queries on their submissions preferably by e-mails, which they are requested to respond quickly for timely publication of **The Lesion-2017**.

Members may also send their materials in hard copies and CD by post, if internet facilities are not available with them. Also please mention your name(s), affiliation, corresponding address, e-mail, contact numbers, etc, on each submission. My specific request to the President/Secretaries of the State Chapters and Zonal Secretaries of IAVP, to send the news items/proceedings of the meetings in concise running text in minimum possible words requiring least editorial corrections along with one good quality photograph that may cover executive members/other member audience, meeting in progress, presentation in progress etc, with banner in the background. Since, this is a regular publication of the association, members, instead of waiting for the call/circular, should submit their contributions with clearly depicting on the top of the page or subject of their mail as “Material for the IAVP Newsletter, **The Lesion**”.

In view of the above, I request all the executive members of IAVP/ICVP and other members of IAVP to respond quickly to this call by submitting news/technical news in large members, so as to make our IAVP Newsletter a rapid medium of communication among our IAVP fraternity.

The last date of submission for the current issue is 30 June, 2017.

Dr K.P. Singh

Secretary General, IAVP

Principal Scientist, Joint Directorate, CADRAD, ICAR-Indian Veterinary Research Institute, Izatnagar, UP 243 122 karam.singh@rediffmail.com
